

The following at the minutes of a meeting of the LCC Community Committee held online at 7pm, 11th April 2023

Attendance: Cllr T Jones, Cllr A Williams, Cllr A Stubbs, Cllr H Burns

1/23 Apologies: Cllr R Jones

2/23 Members' declarations of Interest: - None

3/23 Minutes to approve from the meeting of 14th March

Proposed: Cllr A Williams

Seconded: Cllr A Stubbs

Resolved: to accept that the minutes of 14th March are a true and accurate record

Matters arising:

Defibrillator project: Cllr T Jones stated that a licence proposal has been received from the Canal & River Trust and that council had responded with questions and a query about the awaited repair of the consumer board, which has been delaying the commission of the equipment. A response was requested by the next meeting of Full Council on 18th April. This will be included in the community report so that council can consider the matter further and write again if a response had not been received.

Motion (to be moved if necessary) That the Council asks the Clerk to write again to the Canal and River Trust to seek an update about the project to install a public access defibrillator the Llangattock Lime Kilns.

Recreation Ground Toilet Refurbishment Project:

Cllr Tim Jones: there have been 6 or 7 responses to the council's public request for tenders to carry out work at the public toilets at the recreation ground. The closing date for tenders is May 5th.

04/23 Summer fete:

Cllr H Burns suggested that the summer fete should be run by LCC in cooperation with LVS to make use of LCC's insurance policy; this will require compliance with LCC risk assessment and other governance.

Proposed: Cllr A Williams

Seconded: Cllr A Stubbs

Cllr H Burns also requested that the council move forward with the first aid training of a councillor before the summer fete. Funding for this is to be found within the Community Committee's approved budget heading for 2023/4. The community committee agreed to expedite this. Cllr H Burns volunteered to be trained.

Cllr Andy Stubbs proposed and Cllr T Jones seconded that any donations from stallholders or otherwise should be to the Llangattock Village Society Community Fund.

Cllr H Burns reported that members of LVS had met with Allun Jones of PCC Highways department to discuss the flower troughs in the village. After a tour of the village Mr Jones confirmed that he was happy to recommend to PCC that the licence to allow the placement of the troughs be renewed. Agreement was also reached on the management of verges in the village; wild flower patches will not be sown but LVS will plant bulbs and PCC will carry out modified mowing, with limited grass cutting in May and in July and a full grass cut in September

05/23 Noticeboard:

There was discussion about a new notice board to be purchased and sited in the lych gate. £800 of the Community Committee's budget for 2023 has been allocated to this and permission has been given by the Church Authorities. Cllr A Williams said they would prefer as large a board as possible, preferably with separate areas for community and council notices. She has done some research but will continue to look for an optimum solution, as well as suggesting that the church authorities may make a financial contribution if the cost exceed the council's budget.

06/23 - Place Plan:

Cllr T Jones stated that the topic of the Llangattock Place Plan would become a standing item on future agendas.

07/23 - Correspondence:

There was no correspondence.

08/23 - The next meeting date was set for Tuesday 9th May
